**The University Club
St. Louis, Missouri**

Hello, again! We have to get our ten-year fix by renewing old acquaintances. It is almost impossible to believe it has been **forty years** since we departed the hallowed halls. We are all still so young!

A great many people have put forth an abundance of time and work to make this event possible. And all for love -- love of a wonderful time in our lives that we all want to remember -- love for classmates, many of whom have gathered together for renewal of friendship.

According to the latest questionnaire which was answered by 152 alumni we now have approximately 263 grandchildren. 11 of our compatriots have retired, we have a lot of homebodies, only a few doctors, lawyers, and engineers, about 11 educators, 20 business people, 13 secretaries, 19 business owners, 6 in government, 2 farmers, 1 rabbi, 1 artist, 1 sailor and a few odds.

83 of us have stayed around the St. Louis-Missouri core area: 16 are in California, 6 in Florida, 5 in Illinois, 4 in Ohio, Kansas, Tennessee, and Virginia, 2 each in Michigan, Indiana, Colorado, 1 in Alabama, Arkansas, Canada, Hawaii, Maryland, New Jersey, Massachusetts, Minnesota, Pennsylvania, Washington and Texas.

Interestingly, many of us -114- are still in homes, struggling with grounds-keeping and all the attendant maintenance that comes with home-owning. 23 have opted for the easy condo life, 4 are in apartments, 3 of us have recreational vehicles, 1 has a farm, 15 own a second home, and 8 have boats.

Now that money and time have hopefully become more plentiful almost half of the group want to do more traveling -- not to say that this group hasn't already traipsed from one end of the globe to the other: 20 people would like to just loaf, and engage in more sport activities, i.e., golf and tennis: 4 people would like to fish, play bridge, boat: 2 each would like to devote more time to religious endeavors, computers, writing and one would like to get into the theatre. 10 people said they were deliriously happy with life just as it is!

Hope you enjoy this evening as much as we enjoyed putting it together!

And now -- by popular demand -- we have those ever favorite golden oldies -- back again - and again - and again.... slightly updated, of course.

(To the tune of: "Sentimental Journey")

Gonna take a sentimental journey
It's a trip you gotta try
Gonna make a sentimental journey
How did all those years go by?

Got my books and pictures all around me
Tryin' to recall the past
Names and faces all seem to astound me
How'd we get so old so fast.

Eighteen, I remember being eighteen
Loving all mixed up with hating
Counting out the days til our next date ...
We couldn't wait.

Never dreamed I'd ever get so yearny
Wantin' to go back in time
Gonna take a sentimental journey
Back to 1949.

Words by Aralyn Marmor Rosenberg

THOSE WERE THE DAYS

There was once a time we stood together
And bade goodbye to days of gold and black.
Graduation meant our lives were starting.
Never thought that we'd be looking back.

Those were the days, my friend;
We thought they'd never end.
We thought tomorrow'd be just like today.
We had no wars to fight, we had no wrongs to right,
For we were young and sure to make our way..
La la la la la la, la la la la la la,
Those were the days; oh yes, those were the days.1

Ten years passed, we rarely saw each other,
Back we came to be as we were then.
Something 'about a first time class reunion...
All of us could be eighteen a gain.

Those were the days, *****

Thirty years had slipped away behind us,
Still we dreamed of what was yet to be.
Children having children made us wonder
In life's endless cycle, where were we?

Those were the days, *****

Can you believe we're back again at forty?
Though we've buried dreams that long since died.
Never mind that we are growing older'
Time is standing still for us tonight.

Those were the days, *****

We will have another class reunion,
No matter what the future has in store.
What the hell, we'll be back when we're ninety
And when we do, we'll drink to ninety more!

Those were the days, *****

Words by Aralyn Marmor Rosenberg

FOR ALL THOSE BORN BEFORE 1945

WE ARE SURVIVORS!!!! Consider the changes we have witnessed:

We were born before television, before penicillin, before polio shots, frozen foods, Xerox, plastic, contact lenses, frisbees and the PILL.

We were before radar, credit cards, split atoms, laser beams and ballpoint pens, before pantyhose, dishwashers, clothes dryers, electric blankets, air conditioners, drip-dry clothes -- and before man walked on the moon.

We got married first and then lived together. How quaint can you be?

In our time, closets were for clothes, not for "coming out of." Bunnies were small rabbits and rabbits were not Volkswagens. Designer jeans were scheming girls named Jean or Jeanne, and having a meaningful relationship meant getting along well with our cousins.

We thought the fast food was what you ate during Lent, and Outer Space was the back of the Varsity Theatre. We were before house-husbands, gay rights, computer dating, dual careers and commuter marriages. We were before day-care centers, group therapy and nursing homes. We never heard of FM radio, tape decks, electric typewriters, artificial hearts, word processors, yogurt, and guys wearing earrings. For us, time-sharing meant togetherness -- not commuters or condominiums, a "chip" meant a piece of wood; hardware meant hardware, and software wasn't even a word!

In 1940, "made in Japan" meant junk and Pizzas, "McDonalds" and instant coffee were unheard of.

We hit the scene when there were \$.05 and \$.10 stores, where you bought things for five and ten cents. Velvet Freeze sold ice cream cones for a nickel or a dime. for one nickel you could ride a street car, make a phone call, buy a Pepsi or enough stamps to mail one letter and two postcards. You could buy a new Chevy Coupe for \$600, but who could afford one; a pity too, because gas was 11 cents a gallon!

In our day, cigarette smoking was fashionable, GRASS was mowed, COKE was a cold drink and POT was something you cooked in; ROCK MUSIC was a Grandma's lullaby and AIDS were helpers in the Principal's office.

We were certainly not before the differences between sexes was discovered but we were surely before the sex change; we made do with what we had. And, we were the last generation that was so dumb as to think you needed a husband to have a baby!

No wonder we are so confused and there is such a generation gap today!

BUT WE SURVIVED!!!! What better reason to celebrate!
